COUNT ON KEV!!!

Kevin McStravock

#1 President

Hi my name is Kevin McStravock

I'm the current Vice-President for the Coleraine campus and I'm now running to be your new SU President for 17/18. I've worked hard this year to make UUSU an approachable and inclusive Union but more work needs to be done and I need your vote to make change happen.

Freeze the Fees!

With the snap Stormont elections, it's not clear how higher education will be funded in the coming years and if fees will rise. Students need fearless and passionate advocates. **This year**, I attended a tuition fee rally in London and represented students to university officials, members of local government and key stakeholders. I'll ensure UUSU continues to be an effective voice for students.

A more representative Union

We need to ensure every student has a voice by reaching out to the groups who sometimes get lost or left behind. **This year**, I brought policy to council to create part-time liberation officers—I want to be there to see this policy being implemented.

Mental Health

I'm a proud advocate for mental health—I want us to do even more to support students' mental health. Whether it's been developing a Mental health related EDGE activity, lobbying for student representation on the university's Mental Health working group, or even bringing dogs on campus during exams—as VP I've let my actions speak for themselves. I'll ensure that mental health continues to be at the top of the agenda for the Students' Union and the university.

Better Facilities

All of the campuses could do with some improvements to their existing facilities. **This year**, I've secured a water fountain in the Pharmacy building and 24/7 access to group study rooms in the library for everyone. **Next year**, I'll fight for improvements on all campuses.

Helping with the job search

This year, I established connections with Chambers of Commerce to help us advertise part-time job opportunities for students. **Next year**, I want to strengthen this relationship and work with the Careers & Marketing team in the university to help make Ulster students more employable.

A GREATER Belfast Development

I'll ensure the student voice is at the heart of the plans for the new Belfast campus. Commercial services should be affordable, facilities should be of a high standard and disruption for Jordanstown students making the move should be minimal. I'll work with both site VP's to ensure the student experience is central to the redevelopment.

I'm running for President because I want UUSU to work for everyone. I've proven that I have the capacity to create change and the drive and know-how to implement it.

Want change within Ulster University? **Count on Kev!!!**
