

## **Manifesto**

Hi I'm Hannah Rooney, Social Policy student and all round UUU enthusiast. Ulster University has been ranked in the times top 100 universities and at the forefront of this is our very own Jordanstown campus. The past couple of months Jordanstown has been a second home to me I've already made lifelong friends, become a more confident person and pushed myself to new academic levels. The best way to show my appreciation for Ulster University is to stand for Vice president of the Jordanstown Campus to carry on making it the best campus it can be.

As a presidential candidate I will call for increased funding for the improvement of our students union and a greater awareness of its facilities. I will also liaise with the staff of the Jordanstown Library to call for longer library opening hours during exam times. I believe that the school becoming a paperless system is something that we should all stand behind and to help this the campus Wifi should become more accessible for all students.

As I run out of characters I just want to say that if you vote for me I promise to make Jordanstown the best campus it can be.
