#MC4CC

Well everyone! Hope you are keeping well! My name is Micky Quigg and for the past two years I have represented Ulster University students as the Vice President of Academic & Student Affairs for the Magee campus! I have learnt how the Students' Union and University works! I represented you at Stormont, in University meetings, fought against the cuts, planned many events, given advice to over a thousand students and planned a few campaigns along the way... but I still feel I have something to offer!

### **WHAT I WANT TO BRING NEXT YEAR—IF ELECTED!**

#### ***Ready To Rent!***

Throughout my two years as VP Magee I have seen the issues first hand with students forced to live in unacceptable student housing conditions. I presented a motion to council over the need for a 'Ready to Rent' campaign to create housing rights awareness to our students before the problems arise in the first place. As well as setting up a Students' Union housing partnership, so our students get the landlords/ letting agencies that treat them right. If I am elected this will be a key aim for the next incoming year.

#### ***Sexual Health !***

To put it simply I think we should have more pop up sexual health clinics on campus, more free condoms and more entertaining events that promote sexual health guidance instead of just leaflets. If elected I'll put the buzz back into Sexual health week!

#### ***Student Engagement!***

We've had a bigger student council this year, more motions passed at council, more events on campus, more students coming to student officers for advice and more course reps, clubs and societies than ever before. If elected next year there will be even more consistent communication through our student leaders and more opportunities for everyone to get involved. I'll work closer with Student Support, the Careers department, the library and the University to ensure you get what you're entitled to.

#### ***Mental Health!***

I have always taken mental health seriously not just throughout my time as VP Magee, but throughout my life in general. This year I have already trained over sixty students in PIPS Suicide Awareness training, with more training sessions scheduled for later this year. If elected as VP Campaigns & Communications I will make it my duty to ensure even more of these courses are delivered, that the University support networks will be of the highest possible standard and that our University and fellow students take mental health seriously.

#### ***The Cuts!***

This year I fought against the cuts, I voted against the course closures in University Senate, I went to Stormont to outline the negative effects the DEL cuts will have on our students, met with Minister Farry to discuss how a rise in tuition fees will fail our young people, I took part in numerous protests and pickets outside University council, and wrote to MLAs highlighting the need for investment into higher education. If elected I will continue to go straight to the top to fight for the issues that matter to you.

#### ***Fresher Events & Campaigns!***

This year I was involved with some of the most entertaining and well attended events/ campaigns UUSU has ever had! Our Fresher's Fortnight saw events running throughout all four campuses day and night for our students, because we wanted to cater for all needs whether you travel to University or live in halls. I've been involved in some great events including the Big Fat Sexy Quiz, the Give Your Liver A Break campaign, the Christmas Ball and numerous charity fundraising events, to name a few. If elected more events will be happening on campus, and the type of events that matter to you!

I'm asking for your vote to make UUSU is bigger, better and more engaged than ever before!

So for ONE LAST TIME...*GET QUIGGY WITH IT!* #MQ4CC
