VOTE ON THE PORTAL 7TH, 8TH, 9TH MARCH

Hi, my name is Colum Mackey!

I've spent two years advocating for you at Ulster University; I've been working to deliver a vibrant, involving and representative Students' Union. A Union you want to be involved with and can be proud of. We've come a long way; but your SU can do so much more! I'm asking for your vote to make it happen.

| Representing you!

This year Ulster announced hard hitting cuts to courses and student numbers. I've advocated for publically funded HE and for a change in the frequency of student loan payments. I've spoke out against cuts to nursing bursaries and lobbied MP's in Westminster against cutting maintenance grants.

Next year I will continue to make sure your voice is heard by the decision makers who matter at Ulster, Stormont and Westminster. I'll fight for students!

| What matters to you!

This year Student Council is 4x larger than last. We introduced new changes to give you more influence and we reacted to what Council had to say. I led the team which brought you Suicide Awareness Training, Love Week, International Week, Housing Rights Training, Women in Leadership and gender neutral toilets.

Next year we can do more. With more student input we'll run campaigns on the issue which matter to you!

| Hidden Course Costs

This year I worked with VP Belfast to lobby the University to be more up front on the true cost of studying at Ulster. Our work was lorded nationally by the National Union of Students as an example of standing up for student rights.

Next year I'll continue to listen, react and work on the issues affecting you.

| Events!

This year I led a team to run 59 events for Freshers... up from 25 the year before! But we haven't stopped; whether it's a night out, a quiz, a boat trip or an historical tour we've continued to host events to make your time at Ulster the best it can be.

Next year will be bigger and better. There is still not enough happening on campus. I want a bigger Freshers and a more comprehensive calendar of events for the whole year.

| #UlsterUniCuts

This year I voted against cutting student numbers, reducing staff and slashing courses. I protested with students, lecturers and support staff. I spoke with the Minister for the Department of Employment and Learning, the DEL Committee, the Secretary of State for NI, MLA's, MP's and the press to make sure the impact of cuts on students was well known.

Next year will be the first year with less students and staff. I'll continue to fight to safeguard the quality of your education and make sure the resources are in place so your experience isn't affected.

You want change. I'll work hard to keep making it happen.

Vote MACKEY for President!
